1. What motivates you to want to become a board member?

The kids are the biggest motivator for me. I am alumni and was very active in school and currently still am. It makes me proud when I help kids and they learn from it and it boost their ego and confidence level. I would like to help keep our school positive and help it continue to grow.

2. How would you handle community concerns about school related issues that are brought to your attention?

I would listen to their concerns and respond to the best of my ability in a very professional way and then take those concerns to the other board members at the meeting.

2. What do you see as the board's roles and responsibilities?

I feel it is the board's responsibility to back and support the teachers, administration, students, etc at the school. With that support, faculty is hired for a reason and they should let me do their job unless they are not doing what is in their job description then that should be handled very professional with all angles looked at. There are two sides to every story and both need to be addressed. I think they are to make the final decisions on what will help better the school in every aspect.

1. What motivates you to want to become a board member?

I love our School District and I have such wonderful memories of the years I spent at Linn County R-1. I believe our school system is the center of our community. As a parent with children in the District, I am passionate about working together with others to find solutions that will strengthen our school system and improve opportunities for our children. Our community's well-being and future prosperity depend upon this.

2. How would you handle community concerns about school related issues that are brought to your attention?

As a present member of the board, I have made sure that I understand the problem completely. I have done my best to get as much information as I can in order to make an informed decision about the problem. Communication is key, so I have worked to speak with those involved, kept emotion out of the conversation and focused on the facts so I could remain as fair and impartial as possible. I have had to remember that when dealing with problems, you cannot please everyone. After taking everything into careful consideration, I feel I have done my best at making a fair and responsible choice for the Dis-

trict. I have taken pride in serving the District through the easy times, as well as the hard, and hope to continue to do so for the next three years.

3. What do you see as the board's roles and responsibilities?

The school board is responsible for setting policies to keep the school on track. We set goals as a board for the betterment of our District, and we keep working towards those goals until we reach them. Along with that, we hire and evaluate the Superintendent, adopt and oversee the annual budget, which includes everything from managing the salaries and benefits for the employees, to choosing the companies that provide our students with bread and milk. Last but not least, a major responsibility of a board member is to always be available to listen when patrons of the community have concerns.

Occupation: Walsworth Publishing Company, Customer Service Supervisor

Residence: Linneus, MO

1. What motivates you to want to become a board member?

Both of my children have gone to Linn Co R-1, starting in kindergarten with my son graduating in 2009 and my daughter being a freshman now. Going through their school years, I have always looked at our school as being successful in educating our children and I am very interested in helping to continue

that success. I have always been involved in my children's activities at school and now that they are older, I feel this is yet another way I can be involved. I work with schools around the country in my everyday job and I witness many of the small schools closing due to the economy. I want to be a part of keeping our school operating successfully.

2. How would you handle community concerns about school related issues that are brought to your attention?

Those concerns would be brought back to be presented to the board and discussed accordingly. I have a strong commitment to working with others on the board toward the goal of providing the best possible education for our children. We have to be sure we are researching the concern and have all the necessary information on the issue to make good decisions and that we keep the children in mind first and what would be best for them. It is important that we treat all involved with respect.

3. What do you see as the board's roles and responsibilities?

Our role as an effective board first and foremost is having the right person in the superintendent's seat. Without the right person in this seat, the day to day operations would not run smoothly. Our other responsibilities are setting the vision for education in our community and developing, implementing, and monitoring Linn County R-1's policies and procedures. Decisions we make now will influence what happens in our school district well into the future.
