

September 3, 2020

Dear School Administrators, Teachers and Parents,

In this day and age, a fast and reliable Internet connection is a necessity for students. GRM Networks wants to do its part to help give students access to the Internet service they need.

We are currently offering a Back-To-School promotion through September 30, giving all new customers one month of free service, and giving households with a student two months free. Please call the GRM Networks business office in Bethany at 800-551-1930 or Princeton at 800-451-2301 for more information.

Additionally, when the pandemic forced schools to close back in March, we established free Wi-Fi hotspots at all of our business offices and 48 central offices located in towns across our service area. Those hotspots are still available for anyone who needs to connect to the Internet but does not have service at their home. Simply walk or drive near the building and look for "GRM Free Wi-Fi". No password is needed.

As a long-standing member of your community, GRM Networks has been serving your communication needs for nearly 70 years. We have invested millions of dollars to build a fiber network with Internet speeds of a Gigabit per second. We will continue until all customers have fiber service and can receive these speeds. Our network is reliable, and your Internet speeds won't vary depending on the Internet usage of your neighbors. Other providers with cable or wireless Internet can't compete with the speed and quality of our fiber Internet service. We also back our network with knowledgeable local technicians and friendly customer service representatives who are ready to answer any questions you may have.

No matter what "back to school" looks like for you this year, I want to extend our best wishes for a safe and successful school year.

Sincerely,

Ron Hinds
CEO

GRM Networks® + Homework =
Internet

a. Fast and reliable Internet
